

List of Fiscal Year 2003 Pre-Disaster Mitigation Competitive Grant Recipients

FEMA awarded Pre-Disaster Mitigation Competitive (PDM-C) grant program funds to the following States, Territories, and Federally-recognized Indian Tribes for pre-disaster mitigation activities. The grant program is a Presidential Initiative, administered by FEMA to provide a consistent source of funding to States, Territories, Tribes, and local governments for pre-disaster mitigation planning and projects primarily addressing natural hazards. Funding these plans and projects reduces overall risks to the population and structures, while also reducing the reliance on funding from actual disaster declarations.

The Fiscal Year (FY) 2003 budget provided \$150 million under the National Pre-Disaster Mitigation Fund to initiate a competitive grant program for pre-disaster mitigation activities. Applications that were eligible and evaluated by the National Evaluation panel, in accordance with the FY 2003 PDM-C Grant Guidance and the Notice of Funds Availability published in the Federal Register, were selected for funding. As pre-award activities, including environmental/historic preservation reviews, are completed, additional grants will be awarded on a rolling basis. This list will be updated periodically.
